#### AURINIA PHARMACEUTICALS INC. AND SUBSIDIARIES

# NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

### 1. Organization and Description of Business

Aurinia Pharmaceuticals Inc. (Aurinia or the Company) is a fully integrated biopharmaceutical company focused on delivering therapies to treat targeted patient populations that are impacted by serious diseases with a high unmet medical need. In January 2021, the Company introduced LUPKYNIS<sup>TM</sup> (voclosporin), the first U.S. Food and Drug Administration (FDA) approved oral therapy for the treatment of adult patients with active lupus nephritis (LN) and continue to conduct pre-clinical, clinical, and regulatory activities to support the voclosporin development program as well as our other assets.

On August 17, 2021, the Company announced the addition of two novel assets AUR200 and AUR300. AUR200 is currently undergoing pre-clinical development with projected submission of an Investigational New Drug Application (IND) to the FDA in 2023. The Company anticipates that an IND for AUR300 will also be submitted during 2023.

Aurinia's head office is located at #1203-4464 Markham Street, Victoria, British Columbia, Canada and its registered office is located at #201, 17873-106 A Avenue, Edmonton, Alberta. Aurinia also has a U.S. commercial office located at 77 Upper Rock Circle Suite 700, Rockville, Maryland, 20850 United States.

Aurinia is incorporated pursuant to the Business Corporations Act (Alberta). The Company's common shares are traded on the Nasdaq Global Market (Nasdaq) under the symbol AUPH.

#### 2. Summary of Significant Accounting Policies

#### Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States (U.S. GAAP) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, consisting of normal recurring adjustments considered necessary for fair presentation in accordance with U.S. GAAP. The condensed consolidated balance sheet as of December 31, 2021 was derived from audited annual consolidated financial statements but does not include all annual disclosures required by U.S. GAAP. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2021. The results of operations for the six months ended June 30, 2022 are not necessarily indicative of the results to be expected for the full year or any other future periods.

These unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Aurinia Pharma U.S., Inc. (Delaware incorporated) and Aurinia Pharma Limited (UK incorporated). All intercompany balances and transactions have been eliminated in consolidation and operate in one segment.

These unaudited condensed consolidated financial statements are presented in U.S. dollars which is the Company's functional currency therefore there is no currency translation adjustment upon consolidation as the remeasurement of gains or losses are recorded in the condensed consolidated statements of operations. All assets and liabilities denominated in a foreign currency are remeasured into U.S. dollars at the exchange rate on the balance sheet date. Revenues and expenses are remeasured at the average exchange rate during the period. Foreign exchange gains and losses arising on translation or settlement of a foreign currency denominated monetary item are included in the condensed consolidated statements of operations.

The Company is devoting the majority of our operational efforts and financial resources towards the commercialization and post approval commitments of our approved drug, LUPKYNIS. The Company is also expending efforts towards our newly acquired assets AUR200 and AUR300. Taking into consideration the Company's cash, cash equivalents, restricted cash and investments of \$391.7 million as of June 30, 2022, the Company believes that it has sufficient resources to fund its operations for at least the next few years beyond the date that the unaudited condensed consolidated financial statements are issued.

#### Significant Accounting Policies

Other than as described below, the Company's significant accounting policies have not changed from those previously described in the Company's Annual Report on Form 10-K for the year ended December 31, 2021.

**Restricted cash**: Restricted cash consists of the 2021 Employee Share Purchase Plan (2021 ESPP) deposits of \$0.2 million and \$0.3 million as of June 30, 2022 and December 31, 2021, respectively.

Major Customers: The Company currently has two main customers for U.S. commercial sales of LUPKYNIS and one customer for sales of voclosporin in the European Union, Japan, as well as the United Kingdom, Russia, Switzerland, Norway, Belarus, Iceland, Liechtenstein and Ukraine. Revenues from the two main customers in the U.S. accounted for approximately 54% and 45% respectively of the Company's total revenues for the three and six months ended June 30, 2022. In late March 2022, we provided a nominal additional discount to both of our two main customers, applicable for the remainder of the 2022 calendar year, in connection with holding additional amounts of LUPKYNIS on hand due to supply chain concerns. The Company monitors economic conditions, the creditworthiness of customers and government regulations and funding, both domestically and abroad. The Company regularly communicates with its customers regarding the status of receivable balances. Global economic conditions and customer specific factors may require the Company to periodically re-evaluate the collectability of its receivables and based on this evaluation the Company could potentially incur credit losses.

Accounts receivable, net: Accounts receivable are stated at their net realizable value. As of June 30, 2022 and December 31, 2021, accounts receivable, net are \$18.2 million and \$15.4 million. The timing between the recognition of revenue for product sales and the receipt of payment is not significant. Our standard credit terms, range from 30 to 45 days. We do not assess whether a contract has a significant financing component if the expectation at contract inception is such that the period between the transfer of the promised good to the customer and receipt of payment will be one year or less. We estimate the allowance for doubtful accounts using the current expected credit loss model, or CECL model. Under the CECL model, the allowance for doubtful accounts reflects the net amount expected to be collected from the account receivables. We evaluate the collectability of these cash flows based on the asset's amortized cost, the risk of loss even when that risk is remote, losses over an asset's contractual life, and other relevant information available to us. Accounts receivable balances are written off against the allowance when it is probable that the receivable will not be collected. The allowance for doubtful accounts was \$nil as of June 30, 2022 and as of December 31, 2021.

**Share-Based Compensation:** The Company follows ASC Topic 718, Compensation - Stock Compensation (ASC 718), which requires the measurement and recognition of compensation expense, based on estimated fair values, for all share-based awards made to employees and directors. The Company records compensation expense based on the fair value on the grant date using the graded accelerated vesting method for all share-based payments related to stock options, performance awards (PAs), restricted stock units (RSUs) and purchases under the Company's 2021 ESPP. For stock options, forfeitures are estimated based on historical experience at the time of grant and revised in subsequent periods if actual forfeitures differ from those estimates. For RSUs and PAs, forfeitures are accounted for as they occur.

#### Recently adopted accounting pronouncements

In December 2019, the FASB issued ASU 2019-12, *Income Taxes* (Topic 740): Simplifying the Accounting for Income Taxes, which clarifies and simplifies certain aspects of the accounting for income taxes such as eliminating the exception to the general intraperiod tax allocation principle. The standard is effective for years beginning after December 15, 2020, and interim periods within annual periods beginning after December 15, 2020. The Company adopted the ASU effective January 1, 2021, with no material impact on the condensed consolidated financial statements.

In November 2021, the FASB issued ASU No. 2021-10, Government Assistance (Topic 832): Disclosures by Business Entities about Government Assistance, which requires business entities to make annual disclosures about transactions with a government (including government assistance) by analogizing to a grant or contribution accounting model. The required disclosures include the nature of the transaction, the entity's related accounting policy, the financial statement line items affected and the amounts reflected in the current period financial statements, as well as any significant terms and conditions. The guidance is effective for financial statements issued for annual periods beginning after December 15, 2021. The Company adopted the ASU effective January 1, 2022, with no material impact on the condensed consolidated financial statements.

#### 3. Fair Value Measurements

The Company's financial instruments consist primarily of cash and cash equivalents, short-term investments, accounts receivable, accounts payable and accrued liabilities. The carrying value of accounts receivable, accounts payable and accrued

liabilities approximate their fair value because of their short-term nature. Estimated fair value of available-for-sale securities are generally based on prices obtained from commercial pricing services.

In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from sources independent from the Company) and to minimize the use of unobservable inputs (the Company's assumptions about how market participants would price assets and liabilities). As a basis for considering such assumptions, a three-tier fair value hierarchy has been established, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These
  include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets
  or liabilities in markets that are not active.
- Level 3 Unobservable inputs that reflect the reporting entity's own assumptions.

The following table summarizes the financial assets (cash, cash equivalents, restricted cash and short-term investments) measured at fair value on a recurring basis:

	June 30, 2022							
(in thousands)		Level 1		Level 2		Level 3		Total
Financial assets:								
Cash, cash equivalents and restricted cash	\$	151,632	\$	_	\$	_	\$	151,632
Certificates of deposit		_		3,132		_		3,132
Corporate bond		_		80,852		_		80,852
Commercial paper		93,041		_		_		93,041
Treasury bill		_		11,002		_		11,002
Treasury bond		_		49,744		_		49,744
Yankee bond		_		2,333		_		2,333
Total financial assets	\$	244,673	\$	147,063	\$	_	\$	391,736
				D	21	2021		
				Decembe				
(in thousands)		Level 1		Level 2		Level 3		Total
Financial assets:								
Cash, cash equivalents and restricted cash	\$	231,900	\$	_	\$		\$	231,900
Certificates of deposit		_		3,140		_		3,140
Corporate bond		_		21,820				21,820
Commercial paper		206,724		_		_		206,724
Treasury bill		_		2,494		_		2,494
Total financial assets	\$	438,624	\$	27,454	\$	_	\$	466,078

The Company's Level 1 instruments include cash, cash equivalents, restricted cash and commercial paper that are valued using quoted market prices. We estimate the fair values of our investments in corporate debt securities, government and government related securities and certificates of deposits by taking into consideration valuations obtained from third-party pricing services. The fair value of our short-term investments classified within Level 2 is based upon observable inputs that may include benchmark yield curves, reported trades, issuer spreads, benchmark securities and reference data including market research publications. At June 30, 2022, and December 31, 2021, the weighted average remaining contractual maturities of our Level 1 and 2 investments were 8 months for both periods. These investments are rated A-1, or higher, by Moody's and Standard & Poor's.

There were no sales of available-for-sale securities. No credit loss allowance was recorded as of June 30, 2022, as we do not believe the unrealized loss is a result of a credit loss due to the nature of our investments. We also considered the current and expected future economic and market conditions and determined that the estimate of credit losses was not significantly impacted.

Refer to Note 4, "Cash, Cash Equivalents, Restricted Cash and Short-Term Investments," for the carrying amount and related unrealized gains (losses) by type of investment.

#### 4. Cash, Cash Equivalents, Restricted Cash and Short-Term Investments

As of June 30, 2022 and December 31, 2021, the Company had \$391.7 million and \$466.1 million, respectively of cash, cash equivalents, restricted cash and short-term investments summarized below. As of June 30, 2022, \$3.4 million are held to maturity debt securities which are carried at amortized cost which is approximately equal to their fair market value. As of June 30, 2022, \$388.4 million are available-for-sale debt securities which are carried at fair market value. As of December 31, 2021, \$446.9 million were classified as available-for-sale and \$19.2 million were held-to-maturity.

	June 30, 2022										
(in thousands)		mortized Cost	J	Inrealized Gains	Unrealize (Losses)		Estimated Fair Value				
Cash, cash equivalents and restricted cash	\$	151,632	\$	_	\$	—	\$	151,632

Commercial paper		93,357		_	(	316)		93,041			
Treasury bill		11,045		_		(44)		11,001			
Treasury bond		49,901		_	(	157)		49,744			
Yankee bond		2,342				(9)		2,333			
Total	\$	389,422	\$	_	<b>\$</b> (1,	048)	\$	388,374			
Total held to maturity securities at amortized cost								3,362			
Total cash, cash equivalents, restricted cash and short-term investments							\$	391,736			

	<b>December 31, 2021</b>											
(in thousands)		mortized Cost		Unrealized Gains	_	realized Losses)	Estimated Fair Value					
Cash, cash equivalents and restricted cash	\$	231,900	\$	_	\$	_	\$	231,900				
Certificates of deposit		3,144		_		(4)		3,140				
Corporate bond		2,592		_		(1)		2,591				
Commercial paper		206,764		_		(40)		206,724				
Treasury bill		2,497		_		(2)		2,495				
Total	\$	446,897	\$	_	\$	(47)	\$	446,850				
Total held to maturity securities at amortized cost								19,228				
Total cash, cash equivalents, restricted cash and short-term investments							\$	466,078				

As of June 30, 2022 and December 31, 2021, accrued interest receivable from the investments were \$0.9 million and \$0.1 million, respectively. During the three and six months ended June 30, 2022, the Company had \$235 thousand and \$1.0 million unrealized losses on available-for-sale securities, net of tax, respectively, which are included as a component of comprehensive loss on the consolidated statements of operations. Currently, the Company does not intend to sell investments that are in an unrealized loss position, and it is unlikely we will be required to sell the investments before recovery of their amortized cost basis, which may be at maturity. We have determined that the gross unrealized losses on our investments at June 30, 2022, were temporary in nature. The Company's investments as of June 30, 2022 mature at various dates through February 2023.

#### 5. Inventories, net

Inventories are valued under a standard costing methodology on a first-in, first-out basis and are stated at the lower of cost or net realizable value. The Company capitalizes inventory costs related to products to be sold in the ordinary course of business. The Company makes a determination of capitalizing inventory costs for a product based on, among other factors, status of regulatory approval, information regarding safety, efficacy and expectations relating to commercial sales and recoverability of

costs. Capitalized costs of inventories for LUPKYNIS mainly include third party manufacturing costs, transportation, storage, insurance, and allocated internal labor.

The Company assesses recoverability of inventory each reporting period to determine any write down to net realizable value resulting from excess or obsolete inventories. During the quarter ended June 30, 2022, we recorded a write down of finished goods inventories of approximately \$1.4 million, which was related to safety stock inventory that the Company carried to mitigate supply chain disruptions.

The components of inventory, net are as follows:

(in thousands)	June 30, 2022	<b>December 31, 2021</b>
Raw materials	\$ 2,217	\$ 2,217
Work in process	19,418	12,566
Finished goods	4,228	4,543
Total inventories	\$ 25,863	\$ 19,326

#### 6. Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets are as follows:

(in thousands)	<b>June 30, 2022</b>			nber 31, 2021
Prepaid assets	\$	8,320	\$	5,316
Prepaid deposits		4,109		4,762
Prepaid insurance		3,904		1,632
Other current assets		1,088		796
Total prepaid expenses and other current assets	\$	17,421	\$	12,506

# 7. Intangible Assets

The following table summarizes the carrying amount of intangible assets, net of accumulated amortization.

	June 30, 2022										
(in thousands)	Gros	s Carrying Value	Accumulated Amortization			Net Carrying Amount					
Patents	\$	1,450	\$	(1,225)	\$	225					
Acquired intellectual property and reacquired rights		15,126		(9,321)		5,805					
Internal-use software implementation costs		2,873		(1,565)		1,308					
	\$	19,449	\$	(12,111)	\$	7,338					
			Decem	nber 31, 2021							
(in thousands)	Gros	s Carrying Value		cumulated ortization		Net Carrying Amount					
Patents	\$	1,471	\$	(1,176)	\$	295					
Acquired intellectual property and reacquired rights		15,126		(8,804)		6,322					
Internal-use software implementation costs		2,873		(1,086)		1,787					

Amortization expense for the three months ended June 30, 2022 and 2021 was \$0.5 million for both periods and for the six months ended June 30, 2022 and 2021 was \$1.0 million and \$1.1 million, respectively.

#### 8. Property and Equipment, net

Property and equipment, net are as follows:

(in thousands)	Jun	e 30, 2022	Decembe	r 31, 2021
Construction in progress	\$	488	\$	393
Leasehold improvements		2,978		2,978
Office equipment		645		645
Furniture		976		976
Computer equipment		257		262
		5,344		5,254
Less accumulated depreciation		(1,161)		(836)
Property and equipment, net	\$	4,183	\$	4,418

#### 9. Lease Obligations

The Company has the following lease obligations:

Victoria, British Columbia

During the fourth quarter of 2020, the Company entered into facility and furniture leases for its head office located in Victoria, British Columbia for a total space of 13,206 square feet of office space for the facility lease. The lease terms commenced on January 1, 2021 for the facility and furniture leases. As of June 30, 2022, the Company had \$43 thousand right-of-use assets (ROU assets) and \$43 thousand lease liabilities related to the leases. The Company recognized operating lease costs that are included in SG&A expenses in the condensed consolidated statements of operations. The incremental borrowing rate applied to the lease liabilities on January 1, 2021 was 4.08% based on financial position of the Company, geographical region and terms of lease.

During August 2020, the Company signed a lease for commercial office space in Victoria, British Columbia. The present value of the expected minimum lease payments for this lease are \$2.2 million. As of June 30, 2022, the lease has not commenced and as a result, there has been no accounting recognition associated with the lease. On August 3, 2022, we provided notice of termination of the lease for commercial office space in Victoria on the basis that the landlord's work was not completed by the time required under the lease.

#### Rockville, Maryland

During March 2020, the Company entered into a lease for its U.S. commercial office in Rockville, Maryland for a total of 30,531 square feet of office space. The lease has a remaining term of approximately 9 years and has an option to extend for two five-year periods after the initial term of 11 years has elapsed and has an option to terminate after seven years. As of June 30, 2022, the Company had a right-of-use asset of \$5.0 million and lease liability of \$8.3 million included in the condensed consolidated balance sheets. As of December 31, 2021, the Company had a right of use asset of \$5.2 million and lease liability of \$8.6 million included in the condensed consolidated balance sheets. The Company recorded leasehold improvement incentives in the amount of \$2.3 million as additions to the lease liability. The lease term commenced on March 12, 2020. When measuring the lease liability, the Company discounted lease payments using its incremental borrowing rate at March 12, 2020. The incremental borrowing rate applied to the lease liability on March 12, 2020 was 5.2% based on the financial position of the Company, geographical region and term of lease.

#### Edmonton, Alberta

The Company recognized the lease premises in Edmonton, Alberta as a short-term lease in which expenses are incurred in SG&A. The lease is not material to the Company's financial position.

Beginning January 1, 2021, the Company began to incur variable lease costs under the existing Victoria and Rockville leases. These costs include operation and maintenance costs included in SG&A and are expensed as incurred. The variable lease costs are not material to the Company's financial position.

The operating lease costs for the three and six months ended June 30, 2022 and June 30, 2021 are \$0.3 million and \$0.5 million for both periods respectively.

The following table represents the weighted-average remaining lease term and discount rate as of June 30, 2022:

As of J	une 30, 2022
Weighted Average Remaining Lease Term (years)	Weighted Average Discount Rate
9.1	5.22%

The following table provides a summary of operating lease liabilities payments for the next five years and thereafter:

(in thousands)	Operating Lo	
Remainder of 2022	<b>\$</b>	566
2023		1,061
2024		1,085
2025		1,110
2026		1,135
Thereafter		5,638
Total future minimum lease payments		10,595
Less: lease imputed interest		(2,211)
Total future minimum lease payments	\$	8,384

On December 15, 2020, the Company entered into a collaborative agreement with Lonza to build a dedicated manufacturing facility within Lonza's existing small molecule facility in Visp, Switzerland. The dedicated facility (also referred to as "monoplant") will be equipped with state-of-the-art manufacturing equipment to provide cost and production efficiency for the manufacture of voclosporin, while expanding existing capacity and providing supply security to meet future commercial demand.

Following U.S. regulatory approval of LUPKYNIS in January 2021, the Company has commenced a capital expenditure payment program for the monoplant totaling approximately CHF 21.0 million. The first capital expenditure payment was made in February 2021 of \$11.8 million (CHF 10.5 million) and was treated as an upfront lease payment and recorded under other non-current assets on the condensed consolidated balance sheets. The second payment is not due until the facility fulfills the required operational qualifications which is estimated to be during the first half of 2023. Upon completion of the monoplant, the Company will have the right to maintain sole dedicated use of the monoplant by paying a quarterly fixed facility fee. The Company expects to account for the arrangement as a finance lease under ASC 842. The present value of the minimum lease payments total approximately \$74.0 million, beginning April 2023 and expiring in 2030, and are not included in the above table.

The Company has entered into an equipment and facility finance lease for a backup manufacturing encapsulation site that has not yet commenced and is therefore, not included in the above table. As part of the agreement, the Company expects to make payments of approximately \$885 thousand prior to lease commencement and the future value of minimum lease payments will total approximately \$119 thousand.

#### 10. Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities are as follows:

(in thousands)	June	30, 2022	<b>December 31, 2021</b>			
Employee accruals	\$	12,449	\$	18,278		
Commercial accruals		8,880		5,916		
Accrued R&D projects		5,731		6,412		
Other accrued liabilities		4,499		3,527		
Income taxes payable		821		814		
Total accounts payable and accrued liabilities	\$	32,380	\$	34,947		

#### 11. Deferred Compensation and Other Non-current Liabilities

The Company recorded other non-current liabilities of \$16.3 million and \$16.0 million as of June 30, 2022 and December 31, 2021, respectively. The balance as of June 30, 2022 and December 31, 2021 primarily included deferred compensation arrangements whereby certain executive officers as of March 8, 2012 were provided with future potential employee benefit obligations for remaining with the Company, for a certain period of time. These obligations were also contingent on the occurrence of uncertain future events. Other non-current liabilities also include milestone payments deemed probable to be paid in the future.

#### 12. License and Collaboration Agreements

#### Otsuka Contract

On December 17, 2020, the Company entered into a collaboration and license agreement with Otsuka Pharmaceutical Co., Ltd. (Otsuka) for the development and commercialization of oral LUPKYNIS in the EU, Japan, as well as the United Kingdom, Russia, Switzerland, Norway, Belarus, Iceland, Liechtenstein and Ukraine (collectively, the "Otsuka Territories").

As part of the agreement, Aurinia received an upfront cash payment of \$50.0 million for the license agreement and has the potential to receive up to \$50.0 million in regulatory related milestones. Aurinia will receive tiered royalties on future sales ranging from 10 to 20 percent (dependent on achievement of sale thresholds) on net sales upon commercialization, along with additional milestone payments based on the attainment of certain annual sales by Otsuka. In addition, certain manufacturing services and product sales are provided to Otsuka on a cost-plus basis.

The remaining forms of consideration are variable because they are dependent on achieving milestones or are based on aggregate future net sales for the regions. None of the regulatory milestones have been included in the transaction price, as all milestone amounts were fully constrained. As part of its evaluation of the constraint, the Company considered numerous factors, including the magnitude of a potential reversal of revenue, uncertainty about if or when the milestone related performance obligations might be achieved, and that receipt of the milestones are outside the control of the Company since they are dependent on efforts to be undertaken by Otsuka and regulatory approval by various foreign government agencies. Any consideration related to sales-based royalties (and sales-based thresholds) will be recognized when the related sales occur.

For three and six months ended June 30, 2022, the Company recorded \$13 thousand and \$117 thousand, respectively, of collaboration revenue related to manufacturing services provided under the Otsuka contract.

In furtherance of the collaboration and license agreement with Otsuka mentioned above, on August 1, 2022, the Company entered into a commercial supply agreement with Otsuka, formalizing the terms of its obligations to supply LUPKYNIS to Otsuka in the Otsuka Territories, on a cost-plus basis.

#### Riptide License

On August 17, 2021, AUR300 (M2 macrophage modulation via CD206 binding) was secured through a global licensing and research agreement with Riptide Bioscience, Inc. (Riptide), a private company. As part of the agreement, in 2021 the Company paid Riptide an upfront license fee of \$6.0 million which was expensed as research and development on the condensed

consolidated statements of operations. During the first quarter of 2022, Aurinia paid \$4.0 million for the achievement of a one-time milestone. Additional payments are due upon certain development, clinical and regulatory milestones, and royalties will be payable upon commercialization. It is anticipated that clinical development for AUR300 will commence during 2023.

### 13. Net Loss per Common Share

Basic and diluted net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding. Since the Company was in a loss position for all periods presented, diluted net loss per share is the same as basic net loss per share. The numerator and denominator used in the calculation of basic and diluted net loss per common share are as follows:

	Three months ended June 30,			Six Months Ended June 30,				
(in thousands, except per share data)		2022		2021		2022		2021
Net loss	\$	(35,515)	\$	(47,010)	\$	(73,145)	\$	(97,389)
Weighted average common shares outstanding		141,726		128,222		141,734		127,814
Net loss per common share (expressed in \$ per share)	\$	(0.25)	\$	(0.37)		(0.52)		(0.76)

The Company did not include the securities in the following table in the computation of the net loss per common share because the effect would have been anti-dilutive during each period:

	Six months ended June 30,					
(in thousands)	2022	2021				
Stock options	14,355	14,339				
Unvested performance awards	_	439				
Unvested restricted units	2,008	_				
Warrants		1,014				
	16,363	15,792				

#### 14. Share-based Compensation

The Company's Amended and Restated Equity Incentive Plan (the Plan), which was adopted and approved by the Company's shareholders in June 2021, allows for an issuance of up to an aggregate of 23.8 million shares (inclusive of then outstanding awards) and provides for grants of stock options, performance awards, restricted stock and restricted stock units (RSUs) that may be settled in cash and common shares. Also in June 2021, the Company's shareholders adopted and approved the Company's 2021 ESPP, which allows for the issuance of up to 2.5 million shares. The 2021 ESPP is intended to qualify as an "employee stock purchase plan" under Section 423 of the Internal Revenue Code (the "Code") but also permits the Company to include the employees, including non-United States employees, in offerings not intended to qualify under Section 423. The purpose of the 2021 ESPP is to provide eligible employees with opportunities to purchase the Company's common shares at a discounted price.

During the second quarter of 2022, the Company modified the 2021 ESPP for the current and future offerings. The new ESPP terms shortened the plan from four (4) purchases over a 24 month Offering Period to two (2) purchases over a 12 month offering period. Additionally, the ESPP now contains a rollover mechanism; that is, if the stock price on the purchase date is less than the offering price (as that is determined under the 2021 ESPP), that offering is then canceled and any participants are rolled into the new 12 month offering period at the lower price.

As a result of the modification, \$475 thousand of incremental expense was added to the estimated expense for the November 2022 and May 2023 purchase dates (to be amortized over the new 12 month offering period). Additionally, the originally scheduled purchase date in November 2023 is no longer planned given the new 12 month offering period; therefore, the modification also resulted in a "repurchase for no consideration" under ASC 718. The Company recognized an additional \$651 thousand of unamortized expense for the cancelled November 2023 purchase, which was recorded during the second quarter of 2022.

#### Inducements

The Company's Compensation Committee granted 11 new employees inducement stock options to purchase an aggregate of 93,200 common shares, at a per share exercise price of \$11.38, the closing price of Aurinia's common stock on June 3, 2022, and an aggregate of 54,300 inducement RSUs. The inducement RSUs have a grant date and vesting commencement date of June 6, 2022. The stock options and RSUs were granted as inducements material to the new employees entering employment with Aurinia in accordance with Nasdaq Listing Rule 5635(c)(4).

#### Stock Options

The Plan requires the exercise price of each option not to be less than the closing market price of the Company's common shares on the day immediately prior to the date of grant. The board of directors approves the vesting criteria and periods at its discretion. The options issued under the plan are accounted for as equity-settled share-based payments.

The Company used the Black-Scholes option pricing model to estimate the fair value of the options granted. The Company considers historical volatility of its common shares in estimating its future stock price volatility. The risk-free interest rate for the expected life of the options was based on the yield available on government benchmark bonds with an approximate equivalent remaining term at the time of the grant. The expected life is based upon the contractual term, taking into account expected employee exercise and expected post-vesting employment termination behavior.

The following weighted average assumptions were used to estimate the fair value of the options granted during the six months ended June 30, 2022 and June 30, 2021:

	2022	2021
Annualized volatility	70 %	66 %
Risk-free interest rate	1.83 %	0.35 %
Expected life of options in years	5.0 years	4.0 years
Estimated forfeiture rate	11.7 %	8.8 %
Dividend rate	0.0 %	0.0%
Fair value per common share option	\$ 7.00	\$ 6.59

The following table summarizes the option award activity during the six months ended June 30, 2022:

	June 30	0, 2022
	Number of shares (in thousands)	Weighted average exercise price \$
Outstanding - Beginning of Period	12,074	\$ 12.84
Granted	3,061	11.96
Exercised	(77)	6.75
Forfeited	(703)	15.73
Outstanding - End of Period	14,355	\$ 12.54

#### Performance Awards and Restricted Stock Units

On October 23, 2020, the Company issued 439,000 PAs to executive management of the Company whose vesting was contingent upon meeting specific performance metrics based on the results for the year ended December 31, 2021. Each PA which vested entitled the participant to receive common shares on the basis of the performance metrics set. On March 18, 2021 performance metrics were set and formally communicated. Therefore, March 18, 2021 was the grant date and the fair value on the grant date was \$13.56. As of June 30, 2022, approximately 88,000 PAs vested based on performance metrics achieved and 351,000 were canceled as of December 31, 2021 as performance metrics were not met.

On August 6, 2021, the Company granted approximately 619,000 PAs and RSUs. The grant date for the PAs and RSUs was August 6, 2021 and the fair value on the grant date was \$14.42 as this was the date performance measures were set and communicated to employees. The PAs vest on the employee's first anniversary of the grant date and the employee must achieve at least one of the performance metrics to obtain the portion of the award associated with the metric. The RSUs have no

performance metrics and will vest on the one year anniversary of the grant.

During the quarter, the Company has granted RSUs and intends to grant RSUs throughout the year under the Plan, as well as inducements for certain new hires. The RSUs are fair valued based on the market price of our common shares on the date of the grant.

The following table summarizes the PAs and RSU activity for the six months ended June 30, 2022:

	June 30	0, 2022		
	Number of shares (in thousands)	Weighted average exercise price \$		
Outstanding - Beginning of Period	347	\$ 13.33		
Granted	1,863	12.01		
Vested	(88)	13.56		
Forfeited	(114)	13.99		
Outstanding - End of Period	2,008	\$ 12.03		

#### Compensation Expense

The Company recognized share-based compensation expense for the three and six month periods ended June 30, 2022 and June 30, 2021 as follows:

	Three months ended June 30,						ths Ended e 30,		
(in thousands)	2022		2021		2022			2021	
Research and development	\$	1,066	\$	1,089	\$	2,042	\$	2,163	
Selling, general and administrative		8,883		6,548		14,855		13,189	
Capitalized under inventories		106		116		181		222	
Share-based compensation expense	\$	10,055	\$	7,753	\$	17,078	\$	15,574	

As of June 30, 2022, there was \$39.2 million of unrecognized share-based compensation expense related to unvested awards granted which is expected to be recognized over a weighted-average period of approximately 1.4 years.

#### 15. Income Taxes

The effective tax rates for the three and six months ended June 30, 2022 and June 30, 2021 differed from the federal statutory rate applied to losses before income taxes primarily as a result of the mix of income, losses and valuation allowances. The Company recognized an income tax expense of \$9 thousand and \$19 thousand for the three and six months ended June 30, 2022. respectively. The Company recognized an income tax expense of \$18 thousand and \$26 thousand for the three and six months ended June 30, 2021, respectively. The expense recognized for these periods is a result of income in certain jurisdictions. The Company currently has tax expense in certain jurisdictions that are not offset by tax benefits.

#### Uncertain Tax Positions

The Company was under examination by the Canadian Revenue Agency for years 2017 and 2018. In March 2022, the Company was notified by the Canadian Revenue Agency that the examination is now complete and there were no findings and as a result, there is no additional tax expense or benefit recognized in regards to the audit. There are no outstanding tax audits ongoing at June 30, 2022.

#### 16. Related Party Transactions

ILJIN SNT Co., Ltd (ILJIN) was considered to be a related party due to their equity ownership of over 5% as per their public filing. The outstanding related party amount payable to ILJIN was the result of a settlement completed on September 20, 2013 between ILJIN and the Company. During 2021, Aurinia paid ILJIN \$6.0 million upon achievement of specific milestones. The amount payable to ILJIN is nil as of June 30, 2022 and December 31, 2021.

#### 17. Commitments and Contingencies

The Company may, from time to time, be subject to claims and legal proceedings brought against it in the normal course of business. Such matters are subject to many uncertainties. Management believes the ultimate resolution of such contingencies will not have a material adverse effect on the consolidated financial position of the Company. The Company's material commitments and contingencies have not changed in any material manner from those previously described in the Company's Annual Report on Form 10-K for the year ended December 31, 2021 and the quarterly report for the quarter ended June 30, 2022.

#### Other Funding Commitments

In the normal course of business, the Company enters into agreements with contract research organizations, contract manufacturing organizations and other third parties for services to be provided to the Company. Generally, these agreements provide for termination upon notice, with specified amounts due upon termination based on the timing of termination and the terms of the agreement. The actual amounts and timing of payments under these agreements are uncertain and contingent upon the initiation and completion of services to be provided to the Company.

#### 18. Subsequent Event

The Company's Compensation Committee granted 10 new employees an aggregate of 123,100 inducement stock options and an aggregate of 73,700 inducement RSUs. The options have a per share exercise price of \$8.18, the closing price of Aurinia's common stock on July 29, 2022. The inducement RSUs have a grant date and vesting commencement date of August 1, 2022. The stock options and RSUs were granted as inducements material to the new employees entering employment with Aurinia in accordance with Nasdaq Listing Rule 5635(c)(4).

On July 14, 2022, Aurinia announced the appointment of Volker Knappertz, MD, as Executive Vice President (EVP), Research and Development and Scott Habig has been named Chief Commercial Officer. Max Colao, former Chief Commercial Officer is leaving the Company immediately to tend to personal matters. In connection with the announced appointments, the Company's Compensation Committee granted an aggregate of 488,095 inducement stock options and an aggregate of 290,343 inducement RSUs.

In July 2022, Aurinia announced that the Committee for Medicinal Products for Human Use (CHMP) of the European Medicines Agency (EMA) adopted a positive opinion recommending voclosporin (brand name, LUPKYNIS) for marketing authorization to treat adults with active LN. Upon approval by the EMA, we would be eligible for up to an additional \$30.0 million as an approval related milestone, in addition to low double-digit royalties on sales and revenues for the supply of product to Otsuka under a cost-plus arrangement.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and related notes included in this Quarterly Report. The information in this discussion contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Exchange Act, which are subject to the "safe harbor" created by those sections, as well as "forward-looking information" as defined in applicable Canadian securities laws. Forwardlooking statements are based on our management's beliefs and assumptions and on information currently available to our management. These forward-looking statements include, but are not limited to, statements concerning our strategy, future operations, future financial position, future revenues, projected costs, prospects and plans; objectives of management; the key potential benefits of LUPKYNIS; our belief that we have sufficient financial resources to fund our current plans for at least the next few years; and our potential to receive certain payments and royalties under our agreement with Otsuka; and that an IND is expected to be submitted for AUR200 and AUR300 in 2023; the receipt of up to \$30 million in milestone payments from Otsuka upon EMA approval. In some cases, you can identify forward-looking statements by terms such as "may," "will," "should," "could," "would," "expect," "plan," "anticipate," "believe," "estimate," "project," "predict," "propose," "intend," "continue," "potential," "possible," "foreseeable," "likely," "unforeseen" and similar expressions intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance, time frames or achievements to be materially different from any future results, performance, time frames or achievements expressed or implied by the forward-looking statements. We have made numerous assumptions about the forward-looking statements and information contained herein, including among other things, assumptions about: the accuracy of reported data from third party studies and reports; that our IP rights are valid and do not infringe the IP rights of third parties; our assumptions relating to the capital required to fund operations for the next 12 months; the assumption that our current good relationships with our suppliers, service providers and other third parties will be maintained; assumptions relating to the burn rate of our cash for operations; assumptions relating to the capital required to fund operations for the next few years; assumptions relating to the progress of our pre-clinical activities that our third party service providers will comply with their contractual obligations. Even though management believes that the assumptions made, and the expectations represented by such statements or information are reasonable, there can be no assurance that the forward-looking information will prove to be accurate. We discuss many of these risks, uncertainties and other factors in greater detail under the heading "Risk Factors" in Part I, Item 1A of our 2021 Annual Report on Form 10-K, as filed with the U.S. Securities and Exchange Commission on February 28, 2022 and with applicable Canadian securities regulatory authorities. Given these risks, uncertainties and other factors, you should not place undue reliance on these forward-looking statements. Also, these forward-looking statements represent our estimates and assumptions only as of the date of this filing. You should read this discussion completely and with the understanding that our actual future results may be materially different from what we expect. We hereby qualify our forward-looking statements by our cautionary statements. Except as required by law, we assume no obligation to update our forward-looking statements publicly, or to update the reasons that actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.

#### Overview

Aurinia is a fully integrated biopharmaceutical company focused on delivering therapies to treat targeted patient populations that are impacted by serious diseases with a high unmet medical need. In January 2021, we introduced LUPKYNIS® (voclosporin), the first FDA-approved oral therapy for the treatment of adult patients with active LN and continue to conduct pre-clinical, clinical, and regulatory activities to support the voclosporin development program as well as our other assets.

LUPKYNIS is an orally administered CNI immunosuppressant that has been demonstrated to improve near and long-term outcomes in LN when used in combination with mycophenolate mofetil (MMF) (although MMF is not currently approved as such) and steroids. By inhibiting calcineurin, LUPKYNIS reduces cytokine activation and blocks interleukin IL-2 expression and T-cell mediated immune responses. LUPKYNIS also potentially stabilizes podocytes, which can protect against proteinuria. Voclosporin, the active ingredient in LUPKYNIS, is made by a modification of a single amino acid of the cyclosporine molecule. The mechanism of action of LUPKYNIS has been validated with certain earlier generation CNIs for the prevention of rejection in patients undergoing solid organ transplants and in several autoimmune indications, including uveitis, keratoconjunctivitis sicca, psoriasis, rheumatoid arthritis, and for LN in Japan. We believe that LUPKYNIS possesses pharmacologic properties with the potential to demonstrate best-in-class differentiation.

Aurinia announced during the fourth quarter of 2021 the initiation of ENLIGHT-LN, a U.S. based prospective, observational registry of adult patients with LN treated with LUPKYNIS. The registry is intended to support the interests of patients,

clinicians, regulatory bodies, payers and industry by obtaining longitudinal data on LUPKYNIS. During the first quarter of 2022, we began actively enrolling patients.

In July 2022, Aurinia announced that the Committee for Medicinal Products for Human Use (CHMP) of the European Medicines Agency (EMA) adopted a positive opinion recommending voclosporin (brand name, LUPKYNIS) for marketing authorization to treat adults with active LN. Upon approval by the EMA, we would be eligible for up to an additional \$30 million as an approval related milestone, in addition to low double-digit royalties on net sales and revenues for the supply of product to Otsuka under a cost-plus arrangement.

On August 17, 2021, the Company announced the addition of two novel assets AUR200 and AUR300. AUR200 is currently undergoing pre-clinical development with projected submission of an Investigational New Drug Application (IND) to the FDA in 2023. The Company anticipates that an IND for AUR300 will also be submitted during 2023.

#### Critical Accounting Policies and Significant Judgments and Estimates

There have been no material changes to the Company's critical accounting policies and significant judgments and estimates as described in our Annual Report on Form 10-K for the year ended December 31, 2021.

#### **Results of Operations**

#### Three and Six Months ended June 30, 2022 compared to Three and Six Months ended June 30, 2021

The following table sets forth our results of operations for the three and six months ended June 30, 2022 and June 30, 2021.

	Thre	led June 30,			Six	x Months E	nded	June 30,			
		2022		2021	Change	e		2022	2021		Change
		(i	n tl	nousands)				(i	n tho	ousands)	
Revenue											
Product revenue, net	\$	28,148	\$	6,591	\$ 21,55	7	\$	49,640	\$	7,475	\$ 42,165
License and collaboration revenue		43		29	1	4		176		59	117
Total revenue, net		28,191		6,620	21,57	1		49,816		7,534	42,282
Operating expenses											_
Cost of sales		1,599		308	1,29	1		1,855		356	1,499
Selling, general and administrative		51,532		44,322	7,21	0		96,729		84,127	12,602
Research and development		11,525		10,091	1,43	4		24,145		19,924	4,221
Other (income) expense, net		(476)		(967)	49	1		958		804	154
Total cost of sales and operating expenses		64,180		53,754	10,42	6		123,687		105,211	18,476

Interest income		483		142	34	1		745		314	431
Net loss before income taxes		(35,506)		(46,992)	11,48	6		(73,126)		(97,363)	24,237
Income tax expense		9		18	(	9)		19		26	(7)
Net loss	\$	(35,515)	\$	(47,010)	\$ 11,49	5	\$	(73,145)	\$	(97,389)	\$ 24,244

#### Revenues

Total net revenue was \$28.2 million and \$6.6 million for the three months ended June 30, 2022 and June 30, 2021, respectively. Total revenue was \$49.8 million and \$7.5 million for the six months ended was June 30, 2022 and June 30, 2021, respectively. Our net revenues primarily consisted of product revenue, net of adjustments, for LUPKYNIS following FDA approval in late January 2021. Revenue growth is attributed to further progress in the launch of LUPKYNIS, driven predominantly by further

penetration in the lupus nephritis market. No product sales commenced and no product marketing was permitted prior to January 22, 2021.

#### Cost of Sales

Cost of sales were \$1.6 million and \$308 thousand for the three months ended June 30, 2022 and June 30, 2021, respectively. Cost of sales were \$1.9 million and \$356 thousand for the six months ended June 30, 2022 and June 30, 2021, respectively. The increase for both periods was primarily due to an increase in product related revenue, coupled with safety stock inventory reserves. No product sales commenced prior to January 22, 2021.

Gross margin for the three months ended June 30, 2022 and June 30, 2021 was approximately 94% and 95% respectively. Gross margin for the six months ended June 30, 2022 and June 30, 2021 was approximately 96% and 95% respectively.

#### Selling, General and Administrative Expenses

SG&A expenses increased to \$51.5 million for the three months ended June 30, 2022 compared to \$44.3 million for the three months ended June 30, 2021. For the six months ended June 30, 2022 and June 30, 2021, SG&A expenses were \$96.7 million and \$84.1 million, respectively. SG&A expenses consisted of the following:

	Three Months Ended June 30,					Six Mont Jun				
(in thousands)	2022			2021		2022	2021			
Salaries, incentive pay and employee benefits	\$	19,542	\$	19,548	\$	42,065	\$	38,742		
Professional fees and services		15,669		12,709		26,567		21,426		
Share-based compensation expense		8,883		6,548		14,855		13,189		
Other corporate costs		4,370		3,529		7,998		7,334		
Travel, trade shows and sponsorships		3,068		1,988		5,244		3,436		
	\$	51,532	\$	44,322	\$	96,729	\$	84,127		

The primary drivers for the increase for the three and six months ended June 30, 2022 as compared to the same periods ended June 30, 2021 were an increase in share-based compensation expense and professional fees related to corporate legal matters and increased investment in infrastructure to support the commercialization of LUPKYNIS. For the six months ended June 30, 2022, salaries also increased due to an increase in employee related expenses.

#### Research and Development Expenses

R&D expenses were \$11.5 million and \$10.1 million for the three months ended June 30, 2022 and June 30, 2021, respectively. For the six months ended June 30, 2022 and June 30, 2021, R&D expenses were \$24.1 million and \$19.9 million, respectively. R&D expenses consisted of the following:

	Three Months Ended June 30,		Six Months Ended June 30,				
(in thousands)		2022	2021		2022		2021
Contract research organizations (CRO) and developmental expenses	\$	5,658	\$ 5,074	\$	12,385	\$	9,706
Clinical supply and distribution		1,534	1,138		3,096		2,370
Salaries, incentive pay and employee benefits		2,997	2,713		6,270		5,737
Share-based compensation expense		1,066	1,089		2,042		2,163
Other costs		270	 77		352		(52)
	\$	11,525	\$ 10,091	\$	24,145	\$	19,924

The primary driver for the increase for the three and six months ended June 30, 2022 as compared to the same periods ended June 30, 2021 were due to an increase in CRO and developmental expenses related to AUR200 and AUR300.

#### **Liquidity and Capital Resources**

As of June 30, 2022, we had cash, cash equivalents and restricted cash and investments of \$391.7 million compared to cash, cash equivalents and restricted cash and investments of \$466.1 million at December 31, 2021. The decrease in cash, cash equivalents and restricted cash and investments is primarily related to the continued investment in commercialization activities, advancement of our pipeline and a payment for the achievement of a one-time milestone, partially offset by an increase in cash receipts from sales of LUPKYNIS. Cash, cash equivalents and restricted cash and investments are primarily held in U.S. dollars. As of June 30, 2022 and December 31, 2021, we had working capital of \$418.6 million and \$472.7 million, respectively.

We are devoting the majority of our operational efforts and financial resources towards the commercialization and post approval commitments of our approved drug, LUPKYNIS. We are also expending efforts towards our AUR200 and AUR300 assets. Taking into consideration the cash and cash equivalents and investments as of June 30, 2022, we believe that our cash position is sufficient to fund our current plans which include funding commercial activities, our FDA related post approval commitments, manufacturing commercial drug supply, funding our supporting commercial infrastructure, conducting our planned R&D programs, investing in our pipeline and funding our supporting corporate and working capital for at least the next few years.

#### **Cash Flow Summary**

The following table summarizes our cash flows for the six months ended June 30, 2022 and June 30, 2021:

	Six Months Ended June 30,				
(in thousands)		2022	2021		
Net cash (used in) provided by:					
Operating activities	\$	(74,617)	\$	(91,520)	
Investing activities		(7,396)		(65,577)	
Financing activities		1,745		6,308	
Net decrease in cash and cash equivalents	\$	(80,268)	\$	(150,789)	

Net cash used in operating activities was \$74.6 million for the six months ended June 30, 2022 compared to \$91.5 million for the six months ended June 30, 2021. For the six months ended June 30, 2022, cash used in operating activities was primarily related to the continued investment in commercialization activities, payments made for our ongoing post approval obligations, advancement of our pipeline, inventory purchases and a payment for the achievement of a one-time milestone, partially offset by an increase in cash receipts from sales of LUPKYNIS. For the six months ended June 30, 2021 cash used in operating activities of \$91.5 million was due to the continued support of commercialization efforts, inventory purchases and a one-time payment to a related party upon achievement of specific milestones. The decrease in net cash used in operating activities in 2022 compared to 2021 is primarily due to an increase in cash receipts from sales of LUPKYNIS.

Cash used in investing activities during the six months ended June 30, 2022 was \$7.4 million compared to cash used in investing activities of \$65.6 million during the six months ended June 30, 2021. The decrease was primarily related to purchases of investments offset by proceeds of maturities of investments and a nonrecurring upfront lease payment during the six months ended 2021.

Cash provided by financing activities during the six months ended June 30, 2022 was \$1.7 million compared to cash provided by financing activities of \$6.3 million during the six months ended June 30, 2021. The decrease was primarily due to less proceeds from the exercise of stock options.

#### **Off-Balance Sheet Arrangements**

During the periods presented, we did not have, nor do we currently have, any off-balance sheet arrangements as such term is defined in Item 303(a)(4)(ii) of Regulation S-K under the Securities Act.

#### **Contractual Obligations**

There have been no material changes outside the ordinary course of business to our contractual obligations and commitments as described in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2021.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risks

Our activities can expose us to market risks which include interest rate risk, foreign currency risk, inflation risk and credit risk. Risk management is carried out by management under policies approved by our Board of Directors, with oversight provided by the Audit Committee of our Board of Directors. Our overall risk management program seeks to minimize adverse effects on our financial performance.

#### Interest Rate Risk

Financial assets and financial liabilities with variable interest rates expose us to cash flow interest rate risk. We manage our interest rate risk by maximizing the interest income earned on excess funds while maintaining the liquidity necessary to conduct operations on a day-to-day basis. As of June 30, 2022 our investment portfolio includes cash, cash equivalents, restricted cash and investments of \$391.7 million that earn interest at market rates. Our investment portfolio is maintained in accordance with our investment policy, which defines allowable investments, specifies credit quality standards and limits the credit exposure of any single issuer. Our investments held during the year were comprised of highly rated instruments such as certificates of deposits, money market instruments, obligations issued by the U.S. government and U.S. government agencies as well as corporate debt securities. As of June 30, 2022, these instruments have a maturity of less than a year.

As of June 30, 2022 a hypothetical decrease of 10 basis points on our interest rates of our investments would result in \$0.2 million less interest in our portfolio.

Accounts receivable, accounts payable and accrued liabilities bear no interest. We do not believe that the results of operations or cash flows would be affected to any significant degree by a sudden change in market interest rates relative to our investment portfolio.

#### Foreign Currency Risk

We are exposed to financial risk related to the fluctuation of foreign currency exchange rates. Foreign currency risk for the Company is the risk variations in exchange rates between the U.S. dollar and foreign currencies, primarily with the Canadian dollar, Swiss Franc and Great British Pound, which could affect our operating and financial results. As of June 30, 2022, a 10% increase of the Canadian dollar would have increased the net loss by \$0.1 million assuming all other variables remained constant. An assumed 10% weakening of the Canadian dollar would have had an equal but opposite effect to the amounts shown above, on the basis all other variables remain constant. There were no other foreign currency fluctuations that would have had a material impact on our financial condition or results of operations as of June 30, 2022.

#### Inflation Risk

Inflation has increased during the periods covered by this Quarterly Report, and is expected to continue to increase for the near future. Inflation may generally affect us by increasing our cost of labor, commercial support, manufacturing and clinical trial expenditures.

#### Credit Risk

Our exposure to credit risk generally consists of cash and cash equivalents, investments and accounts receivable. We place our cash and cash equivalents with highly rated financial institutions and invest the excess cash in highly rated investments. Our investment policy limits investments to certain types of debt and money market instruments issued by institutions primarily with investment grade credit ratings and places restriction on maturities and concentrations by asset class and issuer.

We are subject to credit risk in connection with our accounts receivable due from our two customers which accounted for 99% of our net trade accounts receivable balances as of June 30, 2022. We monitor economic conditions, the creditworthiness of our customers and government regulations and funding, both domestically and abroad. We regularly communicate with our customers regarding the status of receivable balances. During the quarter ended June 30, 2022, we did not recognize any allowance for doubtful accounts receivable related to credit risk for our customers.

#### Item 4. Controls and Procedures.

#### Evaluation of Disclosure Controls and Procedures

Our principal executive officer and principal financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of June 30, 2022, have concluded that, based on such evaluation, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the rules and forms of the SEC, and is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

#### Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during the quarter ended June 30, 2022 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

#### PART II—OTHER INFORMATION

#### Item 1. Legal Proceedings.

From time to time, we may be involved in various claims and legal proceedings relating to claims arising out of our operations. Regardless of outcome, litigation can have an adverse impact on us because of defense and settlement costs, diversion of management resources and other factors.

Except as set out below, there are no material developments to report in respect of the litigation described in the Company's Annual Report on Form 10-K for the year ended December 31, 2021 or the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2022.

On June 16, 2022, the Company filed a reply to the petition for *inter partes* review filed by Sun Pharmaceuticals Inc. on February 24, 2022, with respect to U.S. Patent 10,286,036. On July 26, 2022, the United States Patent and Trademark Office's Patent Trial and Appeal Board instituted the *inter partes* review. A determination on patentability is expected on or prior to July 26, 2023.

#### Item 1A. Risk Factors.

Under Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2021 we identified important factors that could affect our financial performance and could cause our actual results for future periods to differ materially from our anticipated results or other expectations, including those expressed in any forward-looking statements made in this Quarterly Report. There has been no material change in our risk factors subsequent to the filing of our prior reports referenced above except as mentioned below. However, the risks described in our reports are not the only risks we face. Additional risks and uncertainties that we currently deem to be immaterial or not currently known to us, as well as other risks reported from time to time in our reports to the SEC, also could cause our actual results to differ materially from our anticipated results or other expectations.

In response to the ongoing armed conflict in Ukraine, the U.S. government, numerous state governments, the EU and other countries in which we conduct business have imposed a wide range of economic sanctions that restrict commerce and business dealings with Russia, certain regions of Ukraine and certain entities. This conflict may also precipitate or amplify the other risks described herein and in our Annual Report on Form 10-K for the year ended December 31, 2021, Part I. Item A. Risk Factors including risks relating to cyber security, global economic conditions and supply chains which could adversely affect our business, operations and financial condition and results.

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Item 3. Defaults Upon Senior Securities.

None.

None.

Item 4. Mine Safety Disclosures.

None.

Item 5. Other Information.

None.

Item 6. Exhibits.

The following exhibits are filed as part of this report:

Exhibit Number	Description
3.1	Articles of Amalgamation, as amended, as currently in effect (filed as Exhibit 3.1 to the Company's Annual Report on Form 10-K with the SEC on February 24, 2021 and incorporated herein by reference)
